**Re:    Authorized Ex Parte Contact** – ET Docket No. 02-380 (Additional Spectrum for Unlicensed Devices Below 900 MHz and in the 3 GHz Band); ET Docket No. 04-186 (Unlicensed Operation in the TV Broadcast Bands)

Dear Ms. Dortch:

On July 2, 2012, Susan Molinari, Vice-President of Public Policy and Government Affairs, Johanna Shelton, Senior Policy Counsel, and I met with Chairman Julius Genachowski. Zachary Katz, the Chairman's Chief of Staff, also participated.

During the meeting, we discussed Google's impact on the economy and its efforts to bring small businesses online. A copy of Google's 2011 economic impact report is publicly available at [www.google.com/economicimpact](http://www.google.com/economicimpact).

We also discussed Google's interest in balanced spectrum policy that makes space for both unlicensed and licensed uses. In particular, we emphasized Google's interest in adopting innovative approaches that allow users to share spectrum and its interest in preserving unlicensed use in the TV bands.

Please do not hesitate to contact me with any questions regarding this submission.

Respectfully submitted,

/s/ Aparna Sridhar
